# Local Event

Explanation of the project (youth mobility) to local youth

# SUMMARY

## The project was developed in Marrakech

- We explained to the attendees the functioning of the Erasmus + program
- We made a brief introduction to the project developed in Marrakech by our partners.
- We emphasized how important this type of project is for European youth.

# DESCRIPTION

## Description of the project "Together as One"

- Social inclusion aims to provide equal opportunities for all individuals, regardless of their background, to reach their full potential in life. This involves policies that promote equal access to services and citizen participation in decision-making. Social cohesion is related to inclusion, creating societies where everyone feels a sense of belonging, respecting diversity, and preventing conflicts. Our project aims to foster communication and cooperation among people from different backgrounds in an international environment, promoting tolerance and respect for diversity.

# OBJECTIVES

**We made a brief presentation of the objectives on which our project was based.**

- To create a sense of resilience among youngsters through creating a comprehensive sense of belonging and identity
- To cultivate the importance of different values
- To reach common objectives in a universal environment and create common values.
- Fostering a greater and inclusive sense of belonging and identity.
- Inducing a sense of tolerance among young people.
- Enhancing the importance of diverse values like the importance of maintaining pluralism, non-discrimination, tolerance, justice, solidarity, and equality.
- Empowering young people to find their own way in life.
- Communicating and cooperating in order to reach common goals in an international environment and develop common values.

September 2023

**All participants agreed on the following slogan "We will be next".**
